SUBSTANTIAL INVOLVEMENT QUESTIONNAIRE FOR TAXATION LAW SPECIALISTS

The questions below concern the last five (5) years of your law practice or such shorter period as may be permitted under Board Standard 6C. The questions are intended to give the Board a general idea of your practice, both tax and non-tax, and the questions should be answered concisely, but with sufficient details so that the Board can objectively verify whether you are substantially involved in the practice of tax law.

The questions calling for the amount of time devoted to certain areas of practice may be answered with approximate numbers. A review of your time records and/or files may be helpful.

The questions calling for narrative answers should be answered by attaching additional pages to this questionnaire.

1. If a substantial part of your time devoted to tax law during the last five (5) years does not involve "the practice of" law, e.g., government service, teaching, practice of another profession or special educational experience such as obtaining an LL.M. degree, describe the activity, the number of years devoted to it (partially or entirely) and the amount of time devoted to it each year. See Board Standards 6C and 6D(4)(a) and (b). Please explain (in a page or two, at most) why you believe the Board should grant a waiver in your case. Give both the facts of your case and your interpretation of the standards that authorize the waiver.
2. What percentage of your time is devoted to:
 - (a) matters which are entirely or almost entirely tax matters? _____%
 - (b) matters which are entirely or almost entirely non-tax? _____%
 - (c) matters which are a mixture of tax and non-tax? _____%
3. For the portion of your practice devoted to matters which are entirely or almost entirely tax matters, describe (in a page or two, at most) the major tax areas in which you practice, the type of work and tasks which you perform, and the percentage of your time devoted to each area. If you like, you may use the attached list as a checklist or source of reminders, and you may indicate the percentage of your time devoted to each item on the list or the average number of times per year that you perform certain tasks on the list, but the list is not intended to suggest that you must have a diverse tax practice covering a large number of

items on the list or that you must have performed some minimum number of certain tasks.

4. Taking the mixed (tax and non-tax) matters (2(c) above) as a group, what percentage of your time spent on these matters is devoted to taxation? _____%

5. List:
 - (a) the main areas of practice in which you work on mixed (tax and non-tax) matters (e.g. estate planning and administration, corporate transactions, tax shelter syndications, real estate transactions, divorce settlements):

 - (b) the percentage of your time spent on each area, and (c) the fraction of the time spent on each, and (d) the fraction of the time spent on each area which is devoted to tax questions.

6. Describe (in a page or two, at most) the more common sorts of tax questions comprising 5(d) above and your work in connection with those questions.
